About the job

We help the world run better

Our company culture is focused on helping our employees enable innovation by building breakthroughs together. How? We focus every day on building the foundation for tomorrow and creating a workplace that embraces differences, values flexibility, and is aligned to our purpose-driven and future-focused work. We offer a highly collaborative, caring team environment with a strong focus on learning and development, recognition for your individual contributions, and a variety of benefit options for you to choose from. Apply now!

What You'll Do

- As CoE Engineer for SAP C4C, you will analyse SAP C4C Sales & Service of our global customers and present the results of your findings and recommendations to IT managers and executives. You have the chance to design and optimize complex IT landscapes, on which our largest customers run their businesses. Your area of responsibility will extend to deep technology root cause analysis and introduction of best practices for operations.
- You should be keen to learn and grasp new technologies and to deliver high quality

services to our customers in India and abroad.

- You must be a techno-functional consultant well versed in technical areas like PDI, ABAP, ODATA and functional areas like C4C Sales and/or C4C Services.
- You should also have good understanding of the interfaces between SAP C4C and other SAP systems like CRM and S/4 HANA.
- You must be a good team player and to deliver our services globally to customers, travel of course, is part daily business

What You'll Bring

- You have 3-5 years' experience in the areas of SAP C4C Sales or Services Processes.
- You have gone through 1 E2E implementation cycles
- You've programming skills in Partner Development Infrastructure (PDI) and ABAP/CDS/ODATA
- You've a very good bachelor's degree in Engineering / Technology
- You're willing to travel worldwide
- You've strong analytical and logical skills
- Ability to work independently and take ownership of assigned tasks
- Very good English skills are a must
- Experience of working on FSM will be an added advantage.

Meet your team

The Center of Expertise (CoE) within SAP IDG provides the expertise in application and technology areas to deliver high-end support to our MaxAttention, Active Embedded and Enterprise Support customers.
