DevOps Tools, Continuous Integration/Continuous Deployment (CI/CD), Cloud Computing, Containerization (Docker, Kubernetes), Infrastructure as Code, Automation Scripting (Python, Shell), Monitoring and Logging, Agile Methodologies,

Company Overview

EduRamp Learning Services Pvt. Ltd. is a Total Training Solutions Provider specializing in B2B Training Needs. We offer IT Trainings, Behavioural & Leadership Trainings, and Industrial Technical Trainings across India. Our team of experts has experience ranging from 5 to 20 years, and we operate under the leadership of Mr. Ravish Gandhi, who has over 15 years of industry experience. Our vision is to maximize the value of training investments for our clients while our mission focuses on providing innovative learning solutions through deep collaboration.

Job Overview

We are seeking an experienced DevOps Freelance Trainer to join our team. This role is suitable for senior professionals and requires a minimum of 8 years to a maximum of 30 years of work experience. The job location is flexible and can be based in Mumbai, Pune, Hyderabad, Bangalore Urban, Delhi, Chennai, and Gurgaon. The position offers a freelance, hybrid, and remote working setup, allowing for considerable flexibility.

Roles And Responsibilities

- Deliver comprehensive training sessions on DevOps tools, practices, and methodologies to corporate clients.
- Develop and customize training materials to cater to the specific needs and skill levels of different participants.
- Facilitate hands-on labs and practical exercises to enhance learning and application of DevOps concepts.
- Assess and evaluate participants' progress and provide constructive feedback to improve their proficiency.
- Collaborate with EduRamp's core team to continuously improve training programs based on feedback and industry trends.
- Stay updated with the latest advancements in DevOps and related technologies to ensure up-to-date training delivery.
- Provide mentorship and support to participants even after the completion of training sessions.
- Maintain documentation and reports of training sessions for internal and client records.

Qualifications And Skills

- Proficient in DevOps Tools, Continuous Integration/Continuous Deployment (CI/CD), and Containerization (Docker, Kubernetes) (Mandatory skill).
- Extensive knowledge and experience in Cloud Computing, including deployment and management of cloud environments.
- Skilled in Infrastructure as Code principles and tools such as Terraform and Ansible.
- Experience in Automation Scripting using languages such as Python and Shell for automating tasks and processes.
- Proficient in Monitoring and Logging tools to ensure system health and performance metrics.

- Understanding and experience in implementing Agile Methodologies in software development and training environments.
- Excellent communication and presentation skills to effectively deliver training sessions and workshops.
- Ability to mentor and guide participants through complex technical concepts and practical exercises.

Desired Skills and Experience

DevOps Tools, Continuous Integration/Continuous Deployment (CI/CD), Cloud Computing, Containerization (Docker, Kubernetes), Infrastructure as Code, Automation Scripting (Python, Shell), Monitoring and Logging, Agile Methodologies
