About the job

Region: Citizens of India can apply

Experience needed: 3+ years

Work Mode: Hybrid (3 days office)

We are seeking a skilled Angular Developer with experience in Angular 11+ to join our team. In this role, you will be responsible for building a top-quality coding base and contributing to our cloud-based systems using the MEAN Stack (MongoDB, Express.js, Angular, and Node.js).

Key Responsibilities:

- Develop and maintain Angular applications with a focus on high-quality, efficient, and scalable code.
- Collaborate with cross-functional teams to define, design, and implement new features.
- Ensure the performance, quality, and responsiveness of applications.
- Identify and fix bugs and performance issues.
- Stay up-to-date with the latest industry trends and technologies to ensure our applications remain cutting-edge.

Requirements:

- Proficient in Angular 11+.
- Experience with the MEAN Stack (MongoDB, Express.js, Angular, and Node.js).
- Strong understanding of cloud systems, particularly MongoDB.
- Ability to write clean, maintainable, and efficient code.
- Excellent problem-solving skills and attention to detail.
- Strong communication and teamwork skills.

Why Join Us:

- Be part of a global team working on exciting and challenging projects.
- Opportunity for professional growth and development.
- Collaborative and innovative work environment.
- Competitive salary and benefits package.

If you are a passionate Angular Developer looking to make a significant impact and grow with a forward-thinking company, we would love to hear from you.
